

Enhanced Pods

How to use

Clinell Enhanced Pods are a chlorine-free solution for cleaning and disinfection of floors and surfaces. Powered by Advanced Peracetic Acid (APA™), they are fast-acting and effective in soiled conditions.

Clinell Enhanced Pods 100
CSEP100

Dilution guidance	1 litre	5 litres
Standard dilution	1 pod	5 pods
Step-up dilution	2 pods	10 pods

Instructions for use

<p>Run hot tap for 30 seconds or until warm to touch (35-45°C)</p>	<p>Add Clinell Enhanced Pod(s) to container (do not tear open)</p>	<p>Measure 5L/1L of warm water into the container</p>	<p>Replace lid on the container. For 5L gently rock for 5 seconds. For 1L gently shake for 5 seconds</p>
<p>Wait 15 minutes for the product to activate. Use dry wipe marker to complete expiry label on the reverse of the container</p>	<p>Use a mop or cloth to apply the solution to the surface and allow to air dry</p>	<p>Dispose of solution after 24 hours by pouring down the drain (e.g., in sluice room)</p>	<p>Wipe clean dry wipe marker from expiry label. Rinse the container with water ready to be used again</p>

Please always follow local guidance for PPE

Use biocides safely. Always read the label and product information before use.
